

Mounting the Extension Pole on the RetroSign

1. Remove the thread plug from the Retro Sign (red plugs underneath the RetroSign).

2. Mount the Adapter plate in the thread hole underneath the RetroSing. Use the 4 screws.

3. Mount the RetroSign on the Extension Pole, by screwing the pole with the tilt head on the Adapter Plate.
4. Connect the plug in the end of the RetroSign

5. Mount the Support plate on the RetroSign and you are ready to measure.
